

D-fx Legacy

AudioSuite Plug-in Package for Avid Systems: Reverb, Chorus, Flanger, Multi-Tap Delay, and Ping-Pong Delay

D-fx is a bundle of AudioSuite Plug-ins featuring Reverb, Chorus, Flanger, Multi-Tap Delay and Ping-Pong Delay effects. D-fx offers a carefully selected group of basic effects an ideal addition to any system running Pro Tools software.

Digidesign Legacy Plug-ins are intended for use by Avid customers who still require Authorizer diskettes to authorize legacy versions of Avid software. Only Legacy versions of Digidesign plug-ins include Authorizer diskettes and can only be purchased via the Digidesign Web Store.

Note: The D-fx plug-ins are included as free DigiRack plug-ins in Pro Tools TDM and LE software version 6.0 and higher, and all Avid Xpress®, Avid Xpress DV, and Avid DNA systems.

Maximum Supported Sample Rate: 192 kHz
