

Music Production Toolkit

Expanded Music Tools

The Digidesign® Music Production Toolkit includes a full range of professional music tools that expand the creative power of your Pro Tools LE™ or Pro Tools M-Powered™ system. It includes an impressive collection of plug-ins, a multi-track version of Beat Detective™ rhythm analysis and correction tool, up to 48 mono or stereo tracks at up to 96 kHz (interface permitting), and the ability to export mixes as MP3 files.

- Professional plug-ins for creating and producing music
 - Digidesign Hybrid high-definition synthesizer
 - TL Space Native Edition convolution reverb
 - Smack! LE compressor
 - SoundReplacer drum replacement tool
 - DINR LE noise reduction plug-in
- Multi-track Beat Detective rhythm analysis and correction tool
- Up to 48 mono or stereo tracks at up to 96 kHz*
- Pro Tools MP3 Option
